Subject: 3M-Wausau, WI
Lot 2 (southern), Railroad Right-of-Way
As Built Report
BRRTS Activity #02-37-587000

Dear Mr. Thompson,

On behalf of the 3M Company (3M), Arcadis U.S., Inc. (Arcadis) is pleased to provide this As Built Report for the southern portion of Lot 2 which consists of railroad track and right-of-way (ROW) in Wausau, Marathon County, Wisconsin (**Figure 1**). The purpose of this As Built Report is to describe the remedial actions completed for the southern portion of Lot 2 as outlined in the Interim Actions Report dated September 28, 2021, and approved by the Wisconsin Department of Natural Resources (WDNR) in a letter dated October 15, 2021.

Site Background

Lot 2 (1.74 acres) is one of three lots 3M purchased from Canadian National Railway in November 2020 (**Figure 2**). According to historical aerial photographs and topographic maps, the three lots appear to have been developed with railroad tracks since 1898.

The 3M Wausau facility is surrounded by Bureau for Remediation and Redevelopment Tracking System (BRRTS) Activity #02-37-000273 (3M Wausau Downtown Parking Lot, Closed) to the west and #02-37-000006 (Wauleco SNE Corp, Open) to the east. The adjacent properties to the west of the facility have been owned by 3M since at least 1961 and the current development footprint surrounding the facility has been consistent since at least 1998, except for a railroad track expansion on the 3M Wausau Downtown Parking Lot in 2007.

Interim Remedial Action

Due to ongoing water drainage issues observed in and around the southern portion of Lot 2, a drainage project was completed from November 8 to December 2, 2021. Although the drainage project involved several parcels near the 3M Wausau facility, the interim remedial action described in this report is limited to the southern portion of Lot 2 and is shown as the “As-Built Area for Remedial Action” on **Attachment 1, Figure 1**.

The design of the interim remedial action included implementation of a clean cover system in areas of Lot 2 that were disturbed during the drainage project. The intent of the clean cover system is to be protective of potential direct contact with soils that may contain arsenic and follow the WDNR NR724 guidelines and Remediation and Redevelopment (RR) 528/RR 709 publications to the extent practical. The completed interim remedial action is

consistent with the WDNR-approved Interim Actions Report and is described in more detail on the following figures:

- **Attachment 1, Figure 2:** Excavation and installation of a drainage ditch located in the area east of the railroad tracks, between the tracks and adjacent Wauleco building.
 - The drainage ditch (157 feet in length) was excavated and overlain with 12 inches of clean soil, filter fabric and approximately 4-inch sized gravel 12 inches in thickness.
- **Attachment 1, Figure 3:** Installation of two concrete trench drains located between the railroad ties at the southern end of the drainage ditch. Each trench drain is steel, approximately 6 inches by 18 inches in size and encased in 4-inch-thick concrete within the existing railroad track ballast.
- **Attachment 1, Figure 3:** Excavation and grading of a drainage swale (25 feet 3 inches in length, 10 feet 4 inches in width) located west of the concrete trench drains between the railroad tracks and parcel boundary.
 - The central portion of the drainage swale (2 to 5 feet wide) was excavated and overlain with 12 inches of clean soil, filter fabric, and approximately 4-inch sized gravel 12 inches in thickness.
 - The sides of the drainage swale (7 to 10 feet wide) were excavated with a 2:1 slope and overlain with 12 inches of clean soil, filter fabric, and approximately 4-inch sized gravel 12 inches in thickness.
- **Attachment 1, Figure 4:** Excavation and grading of drainage area located west of the switch approximately 112 feet north of the railroad track and West Thomas Street intersection.
 - The drainage area (16 feet in length and 4 feet wide) was excavated 2 feet 7 inches below ground surface and backfilled with 2 feet of compacted road base material.

All excavated soils (553.08 tons) generated from this project at Lot 2 were profiled and transported to Marathon County Landfill located in Ringle, Wisconsin for disposal. The disposal tickets are included as **Attachment 2**.

A technical assistance fee-based review of this As Built Report is being requested of WDNR. The *Technical Assistance, Environmental Liability Clarification or Post-Closure Modification Request Form 4400-237* is included as **Attachment 3** and a \$350 check will be submitted.

As outlined in the WDNR letter dated October 15, 2021, and WDNR NR724 guidelines, an operations and maintenance plan is required. Since additional interim remedial actions are anticipated for this BRRTS Activity Number, an operations and maintenance plan will be prepared following completion of the remedial actions.

Mr. Matt Thompson

**Technical Assistance, Environmental Liability Clarification or
Post-Closure Modification Request Form 4400-237**

Notice: Use this form to request a **written response (on agency letterhead)** from the Department of Natural Resources (DNR) regarding technical assistance, a post-closure change to a site, a specialized agreement or liability clarification for Property with known or suspected environmental contamination. A fee will be required as is authorized by s. 292.55, Wis. Stats., and NR 749, Wis. Adm. Code., unless noted in the instructions below. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Definitions

"Property" refers to the subject Property that is perceived to have been or has been impacted by the discharge of hazardous substances.

"Liability Clarification" refers to a written determination by the Department provided in response to a request made on this form. The response clarifies whether a person is or may become liable for the environmental contamination of a Property, as provided in s. 292.55, Wis. Stats.

"Technical Assistance" refers to the Department's assistance or comments on the planning and implementation of an environmental investigation or environmental cleanup on a Property in response to a request made on this form as provided in s. 292.55, Wis. Stats.

"Post-closure modification" refers to changes to Property boundaries and/or continuing obligations for Properties or sites that received closure letters for which continuing obligations have been applied or where contamination remains. Many, but not all, of these sites are included on the GIS Registry layer of RR Sites Map to provide public notice of residual contamination and continuing obligations.

Select the Correct Form

This form should be used to request the following from the DNR:

- Technical Assistance
- Liability Clarification
- Post-Closure Modifications
- Specialized Agreements (tax cancellation, negotiated agreements, etc.)

Do **not** use this form if one of the following applies:

- Request for an **off-site liability exemption or clarification** for Property that has been or is perceived to be contaminated by one or more hazardous substances that originated on another Property containing the source of the contamination. Use DNR's Off-Site Liability Exemption and Liability Clarification Application Form 4400-201.
- Submittal of an Environmental Assessment for the **Lender Liability Exemption**, s 292.21, Wis. Stats., **if no response or review by DNR is requested**. Use the Lender Liability Exemption Environmental Assessment Tracking Form 4400-196.
- Request for an **exemption to develop on a historic fill site** or licensed landfill. Use DNR's Form 4400-226 or 4400-226A.
- **Request for closure** for Property where the investigation and cleanup actions are completed. Use DNR's Case Closure - GIS Registry Form 4400-202.

All forms, publications and additional information are available on the internet at: dnr.wi.gov/topic/Brownfields/Pubs.html.

Instructions

1. Complete sections 1, 2, 6 and 7 for all requests. Be sure to provide adequate and complete information.
2. Select the type of assistance requested: Section 3 for technical assistance or post-closure modifications, Section 4 for a written determination or clarification of environmental liabilities; or Section 5 for a specialized agreement.
3. Include the fee payment that is listed in Section 3, 4, or 5, unless you are a "Voluntary Party" enrolled in the Voluntary Party Liability Exemption Program **and** the questions in Section 2 direct otherwise. Information on to whom and where to send the fee is found in Section 8 of this form.
4. Send the completed request, supporting materials and the fee to the appropriate DNR regional office where the Property is located.

See the map on the last page of this form. A paper copy of the signed form and all reports and supporting materials shall be sent with an electronic copy of the form and supporting materials on a compact disk. For electronic document submittal requirements see: <http://dnr.wi.gov/files/PDF/pubs/rr/RR690.pdf>

The time required for DNR's determination varies depending on the complexity of the site, and the clarity and completeness of the request and supporting documentation.

Technical Assistance, Environmental Liability Clarification or Post-Closure Modification Request

Form 4400-237 (R 12/18)

Page 2 of 5

Section 1. Contact and Recipient Information

Requester Information

This is the person requesting technical assistance or a post-closure modification review, that his or her liability be clarified or a specialized agreement and is identified as the requester in Section 7. DNR will address its response letter to this person.

Technical Assistance, Environmental Liability Clarification or Post-Closure Modification Request

Form 4400-237 (R 12/18)

Page 3 of 5

1. Is a response needed by a specific date? (e.g., Property closing date) Note: Most requests are completed within 60 days. Please plan accordingly.

- No Yes

Date requested by: _____

Reason: _____

2. Is the "Requester" enrolled as a Voluntary Party in the Voluntary Party Liability Exemption (VPLE) program?

- No. **Include the fee that is required for your request in Section 3, 4 or 5.**
 Yes. **Do not include a separate fee.** This request will be billed separately through the VPLE Program.

Fill out the information in Section 3, 4 or 5 which corresponds with the type of request:

Section 3. Technical Assistance or Post-Closure Modifications;

Section 4. Liability Clarification; or Section 5. Specialized Agreement.

Section 3. Request for Technical Assistance or Post-Closure Modification

Select the type of technical assistance requested: [Numbers in brackets are for WI DNR Use]

- No Further Action Letter (NFA) (Immediate Actions) - NR 708.09, [183] - **Include a fee of \$350.** Use for a written response to an immediate action after a discharge of a hazardous substance occurs. Generally, these are for a one-time spill event.
- Review of Site Investigation Work Plan - NR 716.09, [135] - **Include a fee of \$700.**
- Review of Site Investigation Report - NR 716.15, [137] - **Include a fee of \$1050.**
- Approval of a Site-Specific Soil Cleanup Standard - NR 720.10 or 12, [67] - **Include a fee of \$1050.**
- Review of a Remedial Action Options Report - NR 722.13, [143] - **Include a fee of \$1050.**
- Review of a Remedial Action Design Report - NR 724.09, [148] - **Include a fee of \$1050.**
- Review of a Remedial Action Documentation Report - NR 724.15, [152] - **Include a fee of \$350**
- Review of a Long-term Monitoring Plan - NR 724.17, [25] - **Include a fee of \$425.**
- Review of an Operation and Maintenance Plan - NR 724.13, [192] - **Include a fee of \$425.**

Other Technical Assistance - s. 292.55, Wis. Stats. [97] (For request to build on an abandoned landfill use Form 4400-226)

- Schedule a Technical Assistance Meeting - **Include a fee of \$700.**
- Hazardous Waste Determination - **Include a fee of \$700.**
- Other Technical Assistance - **Include a fee of \$700.** Explain your request in an attachment.

Post-Closure Modifications - NR 727, [181]

- Post-Closure Modifications: Modification to Property boundaries and/or continuing obligations of a closed site or Property; sites may be on the GIS Registry. This also includes removal of a site or Property from the GIS Registry. **Include a fee of \$1050, and:**
- Include a fee of \$300 for sites with residual soil contamination; and
- Include a fee of \$350 for sites with residual groundwater contamination, monitoring wells or for vapor intrusion continuing obligations.

Attach a description of the changes you are proposing, and documentation as to why the changes are needed (if the change to a Property, site or continuing obligation will result in revised maps, maintenance plans or photographs, those documents may be submitted later in the approval process, on a case-by-case basis).

Skip Sections 4 and 5 if the technical assistance you are requesting is listed above and complete Sections 6 and 7 of this form Section 6. Other Information Submitted

Identify all materials that are included with this request.

Send both a paper copy of the signed form and all reports and supporting materials, and an electronic copy of the form and all reports, including Environmental Site Assessment Reports, and supporting materials on a compact disk.

Include one copy of any document from any state agency files that you want the Department to review as part of this request. The person submitting this request is responsible for contacting other state agencies to obtain appropriate reports or information.

Phase I Environmental Site Assessment Report - Date: _____

Phase II Environmental Site Assessment Report - Date: _____

Technical Assistance, Environmental Liability Clarification or Post-Closure Modification Request

Form 4400-237 (R 12/18)

Page 4 of 5

Legal Description of Property (required for all liability requests and specialized agreements)

Map of the Property (required for all liability requests and specialized agreements)

Analytical results of the following sampled media: Select all that apply and include date of collection.

Groundwater Soil Sediment Other medium - Describe: _____

Date of Collection: _____

A copy of the closure letter and submittal materials

Draft tax cancellation agreement

Draft agreement for assignment of tax foreclosure judgment

Other report(s) or information - Describe: As-Built Report, dated February 2, 2022
