Hi Matt

A quick update. We have not received any of the results from Vista. When we spoke with Vista last week, we were to receive the results on last Friday. We will keep contacting the lab and keep the Team updated.

Thank you

Andrew,

This may be the first time we've encountered this situation. Please let me know when AECOM has received the data and expected timeline for submittal to the Department once you've had a chance to review the data.

Thank you for the update.

Matt

Hi Matt,

A quick update on this project. Groundwater sampling was completed during the week of June 6<sup>th</sup>. We have not received soil or groundwater results from Vista (lab). Upon checking with the Vista on sample status, we have learned they are under a ransom ware threat. We were not given any details, but the release of analyticals has been delayed with an estimated release of data to AECOM of next week. We will keep you informed as this progresses.

Please call with any questions.

Matt

I will give you a call with an update. As of right now we have not received soil analytical. Groundwater sampling is to occur next week (Monday, June 6<sup>th</sup>). The airshow is current on going for this week.

Good morning,

I am just touching base to confirm if field work has begun at the site or if data is available to share with impacted parties.

Thanks,

Matt

**Subject:** RE: CVRA SIWP Update BRRTS# 02-18-588115

All,

This is disappointing news, I don't understand why these issues were not taken into consideration when the site investigation work plan schedule was put forth. I will relay this information to stakeholders in and around Eau Claire who were expecting results early this spring.

The Department has been very flexible with its timeline while working with the Airport. If the initial site investigation work has not started by May 20<sup>th</sup> the project will be considered out of compliance, and a notice of non-compliance will be issued to the Airport.

Please contact me when a drilling contractor has been scheduled.

Thank you,  
Matt

Matt,

We have been discussing the timing of field work with our drilling contractor. Based on the timing of the FAA review, lifting of frost road restrictions, ground stability after spring thaw, and our contractor's schedule we are looking at the week of May 6<sup>th</sup>. We had another discussion with a separate drilling contractor to see if we could move the schedule up. The best they could do was the week of May 16<sup>th</sup>. We will continue to be in contact with the driller to find opportunities to advance the drilling schedule. Please let us know if you have any questions.

Thank you

Andrew

Andrew- how does this affect the site investigation schedule outlined in the SIWP? Please send an updated investigation schedule that reflects this update.

Thank you,  
Matt

The FAA requests up to 60 days to review and I submitted on January 18, 2022.

Thank you,

Charity

Hi Matt,

We have not received the FAA airspace review back. We are waiting to get that review back before we can proceed.

Thank you,

Charity
