RE: Graymont Comments on 100% Remedial Design
800 Hill Ave, Superior, WI 54880
BRRTS ID #02-16-275446

Mr. Mehle:

I am submitting these comments on behalf of Graymont (WI) LLC (“Graymont”) regarding Superior Water, Light & Power’s (“SWL&P”) proposed 100% Remedial Design for the Upland Area of the above mentioned BRRTS Site. Graymont appreciates the opportunity to discuss the proposed 100% Remedial Design and to submit these comments in follow up to our prior discussions.

Graymont continues to have concerns regarding potential residual contamination on the Graymont property in general and specifically associated with the former MGP building. Graymont reiterates that SWL&P, as the responsible party, should remain responsible for any and all costs and other obligations associated with continuing obligations and residual contamination on the Graymont property. Graymont continues to request notification of and the opportunity to review any revisions to remedial action design plans and documents regarding case closure prior to submittal of a request for case closure. We expect that SWL&P will continue to work with Graymont to develop a legally enforceable agreement regarding SWL&P’s responsibilities for continuing obligations prior to case closure.

Sincerely,

STAFFORD ROSENBAUM LLP

Vanessa D. Wishart
