Hi Matt,

Thank you for checking in and a quick update. AECOM is still developing the Site Investigation report for the field work performed in early summer of this year. The report will include recommendations for the next phase of the continued site investigation to further delineate horizontal and vertical impacts. Once the site investigation is complete a review of remedial options will be considered. We anticipate a report by the end of September.

Thank you

Andrew

Ms. Zich,

Thanks again for submitting the initial sampling results for the Chippewa Valley Regional Airport site. I'm just checking in for an update on planned path forward for the site. Has a timeline been established for follow up sampling and identifying a remedial strategy for the site?

Thanks much,
Matt
