**Subject:** RE: LSE PFAS Investigation, BRRTS #02-32-587437: Request for Deadline Extension

Mr. Storlie,

The Department has received your request for an extension to the January 15, 2023 deadline for submittal of a workplan to continue the site investigation. The Department understands that timing of City Council meetings and the city's procurement process does not always coincide with specific NR 700 requirements. We understand that progress is being made and approve your request for an extension. Please keep us informed as progress is made.

Thank you

**We are committed to service excellence.**

Dear Mr. Rozeboom:

On behalf of the City of La Crosse, I am requesting an extension to the Department's timeframe for submitting the workplan for additional site investigation. In your November 22, 2022 notice-to-proceed letter you required submitting a work plan and schedule for additional site investigation within 30 days, which is January 15, 2023 and which falls on a Sunday. We would like an additional month in order to inform and obtain feedback and concurrence from City decision-making bodies, to identify a funding source and secure legislation authorizing funding. While the topic is slated to proceed through the committee cycle culminating in the City Council meeting on the evening of February 9, the funding source has not yet been identified. Thus, we respectfully request an extension to February 15, 2022. Given the potential challenges of identifying a funding source and securing governing board approval, we wish note that we may need to ask for an additional month into mid-March.

Please call me with any question you may have.

Sincerely,

**John Storie, PG** | Principal Consultant | Managing Member
