**Subject:** CWC East Block (02-41-263675) - Weekly Progress Report Requirements

Good Morning,

On March 31, 2023, the DNR issued an Emergency Order for the Community Within the Corridor (CWC) East Block site. Paragraph 6 in Section III of the Emergency Order states that, “[u]nless directed otherwise in writing by the DNR, [CWC must] submit weekly progress reports describing the actions taken at the site and provide a status update on all immediate action items listed in paragraph 3. and 4.” of Section III of the Emergency Order. The DNR has determined that, given the status of the ongoing corrective actions that are occurring at the CWC East Block site, CWC’s submission of a Remedial Action Options Report (RAOR) as required by DNR in its June 7, 2023 letter to CWC, and the fact that the CWC-East Block building is unoccupied, CWC is no longer required to submit weekly progress reports under the March 31, 2023, DNR Emergency Order. CWC must continue to comply with all other requirements in the Emergency Order. CWC must also comply with all applicable requirements in Wis. Stat. ch. 292 and the Wis. Admin. Code NR 700 series. Please be aware that under Paragraph 5 in Section III of the Emergency Order, CWC must submit all indoor air sampling results to the DNR upon receipt. Under Wis. Admin. Code s. NR 716.14(2), CWC must submit all other sampling results within 10 business days of receiving the results. The DNR recommends that CWC continue to submit comprehensive data tables, including both new and previous sampling results, when submitting new sampling results to the DNR.

Thank you for your continued work on this site and for your cooperation.

**We are committed to service excellence.**
