Hi Jane,

- Soils Report is already submitted electronically.
- Field work for non-hazardous waste excavation and disposal is scheduled to start on October 30, 2023.
- We submitted a request for EPA Generator ID Number yesterday.
- We are working on permitting for disposal of hazardous waste at US Ecology in Belleview, Michigan. We anticipate contracting to be completed in a week or so.
- We expect to start TCLP positive soils excavation in the second week of November. Please review the report and let us know if you have any questions before we start excavation for hazardous wastes.

Thank you.

Pratap N. Singh, Ph.D., PE

Good Morning,

Thank you for the email. Please submit the report through the RR electronic submittal portal as soon as feasible.

Please confirm the planned schedule for soil excavation activities. Specifically indicate when the soils that are characteristic hazardous waste will be excavated.

Thank you, Jane

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Hi Jane,

Attached please find the results of the soil investigation for the proposed excavation areas starting October 30, 2023. We kindly request your feedback on the same as soon as possible.

Please let me know if you have any questions.

Thank you,

Sameer Neve, Ph.D., ENV SP
