Subject: Revised Q1 2023 Progress Report Approval
Tyco Safety Products - Ansul Stanton St Fac
U.S. EPA ID NO. WID006125215
1 Stanton Street
Marinette, WI 54143

Dear Ms. Ziegelbauer,

The Environmental Protection Agency (EPA) and the Wisconsin Department of Natural Resources (WDNR) have reviewed the Revised Q1 2023 Progress Report dated and received on August 1, 2023, submitted for this facility. The revised report was requested in an EPA and WDNR review letter sent on June 30, 2023. The Revised Q1 2023 Progress Report is hereby approved, however, please address the following comments:

- The base map for the site doesn't include major changes that occurred in the last five years including the new ChemDesign Building. Please provide an updated map figure that illustrate these changes and use this map in all future reports when applicable.
- Provide a table that summarizes water pumped, treated, stored, discharged, and disposed of at or from the site.

If you have any questions about this review please contact me at the phone number in the signature box below or via email.

Thank you

Andrew Kleinberg
