Hello All,

I'm going to out of the office next Monday through Wednesday and won't be able to attend Wednesday's meeting. I was able to review the Annual Monitoring Report and had one specific comment. A complete listing of the results from each well would be helpful to visualize trends for each of the wells.

Thank you.

We are committed to service excellence.

Hi OJ,

I reviewed the 2023 AMR and have some minor comments that need to be addressed in this report, and other comments regarding information/discussion that are necessary in future reports to understand the Site and its trends.

None of the comments are time-critical and so I'd suggest we just block off extra time (~30 minute) for our April 17th call to run through them. After discussion about next steps, I'll send a formal comment letter for clarity and future reference. Happy to meet earlier if y'all prefer.

Best,

Jeff Dewey
