Subject: Wausau Ground Water Superfund Site CW-3 Shutdown Request

**CAUTION: This email originated from outside the organization.

Hi OJ,

EPA and WDNR are requesting that an updated shutdown request for CW-3 be submitted by the PRP group. A detailed shutdown plan combined with what monitoring will be performed to ensure that the plume is remaining contained on Site should be included. CW-3 should continue operations as normally required until further notice.

Thank you,

D. Michael Holt III
