Parcel Identification Number (PIN)

I, Roxanne N. Chronert, being first duly sworn, state that:

1. I am a Remediation and Redevelopment Program supervisor, employed by the Wisconsin Department of Natural Resources (DNR) at its Northeast regional office.
2. I have personal knowledge of the facts herein set forth and believe the same to be true.
3. The contaminated soil and groundwater, for which the DNR recorded a Notice of Contamination (Deed Notice) on June 23, 2000, as Document Number 137014, and subsequent Affidavit (Amended Deed Notice) on September 18, 2000, as document number 1379997, has been investigated and remediated to the satisfaction of the DNR. The residual contamination, originating from the property described above, which exceeds State standards, no longer poses an imminent threat to human health or the environment. A final case closure letter with continuing obligations for residual soil and groundwater contamination was issued by the DNR on November 25, 2005.
4. In accordance with Wis. Admin. § NR 728.11(3), on December 14, 2020, the DNR sent a letter, to the City of Seymour stating the intent to record a second notice that supersedes the original Amended Deed Notice for the above-described property at the county Register of Deeds office.
5. In accordance with § NR 728.11(3), this affidavit is being recorded for the purpose of notifying prospective purchasers and other interested persons that the previously recorded Notice of Contamination (Deed Notice) on June 23, 2000, as Document Number 137014, and subsequent Amended Deed Notice, dated September 18, 2000, as document number 1379997, are terminated and no longer applicable to the above-described property.

Roxanne N. Chronert,
Team Supervisor, Northeast Region

This document was drafted by the Wisconsin Department of Natural Resources.

EXHIBIT A

Written Determination by the Wisconsin Department of Natural Resources

1. A Notice of Contamination (Amended Deed Notice) was recorded at the Register of Deeds in Outagamie County, Wisconsin, on September 18, 2000, as Document No. 1379997. It applies to the property located at 120 N. Main St, in the city of Seymour, Wisconsin (Property) which is owned by the City of Seymour.
2. The Amended Deed Notice recorded under Wis. Admin. Code § NR 728.11, was to notify the public of the existence and potential liability of contamination associated with the Property. The Wisconsin Department of Natural Resources (DNR), in accordance with the Wis. Admin. Code ch. NR 700 rule series and Wis. Stat. § 292.11(3), determined all administrative and statutory obligations for this release of contamination had not been met. Because the DNR believed contamination would continue to release to the environment, it was necessary to notify the public and any subsequent owner, of the liability associated with the contamination on the Property.
3. The Property was formerly a gas station with six Underground Storage Tanks (USTs) which stored petroleum for retail use. On October 23, 1998, a limited Phase II Environmental Site Assessment was conducted which confirmed a release to the environment had occurred. The DNR was notified of the release on March 26, 1999, and a Responsible Party letter was issued to the Property owner on April 6, 1999.
4. Subsequently the UST system, including the pumps and piping, were removed. Site investigation activities took place which did define the degree and extent of Volatile Organic Compounds and Polycyclic Aromatic Hydrocarbons in all applicable media and the site was granted closure on November 25, 2005.
5. Thus, at this time, with the information available, the release of contamination at the Property has been determined to meet all administrative and statutory obligations in accordance with Wis. Admin. Code chs. NR 700-799 and Wis. Stat. § 292.11(3). Please refer to the Continuing Obligations packet found on BRRTS on the Web, for the list of continuing obligations which currently exist at the Property located at, 120 N. Main St, in the city of Seymour, Wisconsin.
6. Therefore, the environmental contamination previously identified on this Property has been adequately addressed and the previously filed Amended Deed Notice, has been satisfied.
