Compliance Determination

- Based on my personal inspection of the real property, the well and pressure system: (check one)
- Complies** with NR 812, Wis. Adm. Code
- Does not Comply** with NR 812, Wis. Adm. Code
- Complies** with NR 812, Wis. Adm. Code, except that a more comprehensive search or additional research is needed to evaluate potential violations that may exist but are not fully identifiable as part of the basic visual inspection, such as:
- an unused well floodway/floodplain contamination source
- other: _____

This form lists the visible conditions of the well and pressure system on the property at the time of inspection and does not imply or give any guarantee. Some features such as well cap, casing height or nonpressure conduit may comply for purposes of this inspection, but may require an upgrade the next time work is done on the well or pressure system.
