Recreational Development Wetland Discharge General Permit Application Checklist

3500-148 (R 01/2024)

Recreational Development Wetland Discharge General Permit Application Instructions

The General Permit (WDNR-GP4-2023) is available under section 281.36 (3g), Wis. Stats. for a permanent or temporary discharge to or fill of wetlands of no more than 10,000 square feet that is part of a recreational development. To qualify for this general permit, your project must meet all eligibility standards listed below and all other terms and conditions outlined in WDNR-GP4-2023.

Bridges that completely span wetlands, or some boardwalks built on pilings, are typically not regulated as wetland fill. Direct placement of soil, dirt, gravel, or other materials are regulated as wetland fill and require a permit. If you have a question about whether your trail may need a permit, contact your local Water Management Specialist or U.S. Army Corps of Engineer (ACOE) project manager.

Note: crossing a navigable waterway requires a Wisconsin DNR permit, may require an ACOE permit, and must also meet local shoreland and/or floodplain zoning requirements.

Determine eligibility for this general permit:

- Choose an activity decision module on web, http://dnr.wi.gov/topic/waterways, or
- Review the eligibility criteria below.
 - o If the project does not meet all of the eligibility standards, apply for an Individual Permit

To apply:

- Apply online using our online ePermitting System at http://dnr.wi.gov/permits/water.
- Include all required attachments. Each document must be less than 15 megabytes and our online system offers a help guide to
 reduce file sizes.
- Permit processing review times begin when all of the required application materials are received by the DNR. The department
 may require additional information to evaluate the project.
- If you have questions regarding your application, contact the local Water Management Specialist for your county.
 http://dnr.wi.gov/topic/Waterways/contacts.html#county.
- Your signed submittal of this project application checklist constitutes a request that certifying authority (State of Wisconsin) review
 and take action on this CWA 401 certification request, as required, within the applicable reasonable period of time.

Please note, prior to starting any work at the project site, you are responsible for:

- Obtain all necessary local (e.g. city, town, village or county) permits.
- Obtain U.S. Army Corps of Engineer permits or approvals, http://www.mvp.usace.army.mil/Missions/Regulatory.aspx.
- Any other applicable state permits.

Required attachments - Forms or documents you upload in our online ePermitting System

- Application form A complete, signed application form "Water Resources Application for Project Permits (WRAPP)" (Form 3500-053).
- **2. Application fee** Payment must be submitted through the ePermitting System as part of the application process. A list of fees can be found at http://dnr.wi.gov/topic/waterways/documents/PermitDocs/feesheet.pdf.
- 3. Application checklist a signed copy of the permit application checklist certifying that the applicant agrees to meet the eligibility criteria and permit conditions established in WDNR-GP4-2023.
- 1. Ownership documentation (i.e. copy of deed, land contract, current property tax statement/receipt)
- 2. Photographs that clearly show the on-the-ground conditions of the existing project areas. Remember that too much snow cover or vegetation may obscure important details. If possible, have another person stand near the project area for size reference. Color images are preferred.
- 3. Site maps that clearly illustrate the location and perimeter of the project site, and its relationship to nearby water resources (e.g. lakes, rivers, streams, wetlands), major landmarks and roads. Provide copies of relevant maps (e.g. wetland, aerial, topographical, soil, floodplain, or zoning maps), with the project location clearly identified. The Department offers a web mapping tool to assist in creating these maps at http://dnr.wi.gov/topic/surfacewater/swdv/.

3500-148 (R 01/2024)

- **4. Plans and specifications** that show what you intend to do. Plan drawings should be clear and to scale. Be sure to draw all plans as accurately and detailed as possible. The department reserves the right to require additional information to evaluate the project. Please refer to this sample drawing for assistance developing your plans and specifications, http://dnr.wi.gov/topic/Waterways/sample_drawings/DryHydrant.pdf.
- **5. Narrative description** of your proposal on a separate page. Please include:
 - What the project is, purpose of project, and need for the project
 - How you intend to carry out the project, including methods, materials, and equipment
 - Your proposed construction schedule and sequence of work
 - What temporary and permanent erosion control measures will be used
 - The location of any disposal area for dredged or excavated materials
 - For disturbances or fill, provide a description of type, composition, and quality of materials
 - How you plan to avoid, minimize and mitigate impacts to waterways
 - Area (e.g. linear feet) impacted
- 6. Endangered and threatened resources The applicant is not required, but is encouraged to request an endangered resources (ER) review letter before applying for the permit. Information on how to obtain a review can be found by visiting the website at http://dnr.wi.gov/topic/ERReview/Review.html. The applicant can also visit the NHI Public Portal, http://dnr.wi.gov/topic/ERReview/PublicPortal.html, to determine if a full ER Review is required. Read the 'What is an ER Preliminary Assessment and what do the results mean?' section to determine follow-up steps.
- 7. Historical and cultural resources If you are aware there is a historical or cultural resource present, you are required to contact the Wisconsin State Historical Society to verify and receive documentation that the activity will not result in an adverse impact to these resources.

Eligibility criteria: Projects that do not meet all criteria are not eligible for this general permit. If your project does not qualify for this general permit, you may apply for an individual permit.	

Recreational Development Wetland Discharge General Permit Application Checklist

3500-148 (R 01/2024)

Other Authorities	
By checking this box, I certify that the proposed project will not occur in a mapped floodplain (official Federal Em Management Agency (FEMA) or local zoning map), or if the project is located in a regulated floodplain, I am obtained applicable floodplain permits from the local zoning authority.	
Certification	
I certify that I have read and understand all project eligibility criteria and agree to design and construct my project in a with all listed eligibility criteria found in this checklist. In addition, I agree to meet all conditions required for structure as identified in the above referenced eligibility criteria.	
This form may be signed electronically, pursuant to Wis. Stat. Chapter 137. By checking the electronic signature acknowledgement box and typing your name, you are expressing intent to sign this form and certifying that all in contained herein is true, accurate, and complete, to the best of your knowledge and belief. If you decline to sign electronically, you must physically sign this form and all other forms required for your project.	formation
