Beneficial Use of Industrial Byproducts Initial Certification and Recertification

4400-197 (R 11/20)

NOTICE: Initial Certification - This form must be completed and provided to the Department of Natural Resources prior to the initiation of the beneficial use of an industrial byproduct, or for the establishment of a storage facility for beneficial use of an industrial byproduct in accordance with s. NR 538.14(1), Wis. Adm. Code. Unless an initial certification form is filed under NR 538.14, Wis. Adm. Code, the beneficial use or storage of industrial byproducts may be subject to licensing under s. 289.31, Wis. Stats., and the regulatory requirements under chs. NR 500 to 536, Wis. Adm. Code.

Recertification - This form must be completed and provided to the Department of Natural Resources for recertification of an industrial byproduct every 4 years from the date of the initial certification or the last recertification, or when there is a change in the process that produces the industrial product that could potentially result in a change in the eligible uses of the industrial byproduct in accordance with s. NR 538.14(2), Wis. Adm. Code.

Information provided on this form is open to inspection under Wisconsin's Public Records law. Personally identifiable information provided in this form is intended to be used solely for purposes related to the waste management program.

Industrial Byproduct Generator / Storage Facility Operator General Information

Note: a separate form must be used for each industrial byproduct, and each storage facility.

This certification is for (*check one*) Initial Certification Recertification of

Company		Phone Number (<i>include area code</i>)	
Contact / Title	Email address		
Mailing Address	City	State	ZIP Code

Location of (*check one*) byproduct Generator **or** storage facility (if different than mailing address)

Industrial Byproduct Information

Type of Industrial Byproduct _____

Other - Describe: _____

Note: Ferrous foundry slag used in accordance with s. 289.01(33), Stats. does not need to be reported to the Department.

Are you requesting that the byproduct be designated as a "select foundry sand" per s. NR 538.06(3)(f) Wis. Adm. Code?

Yes No If "Yes", attach all supporting documentation demonstrating that the byproduct meets the definition of "select foundry sand" under s. NR 538.03(12m) Wis. Adm. Code.

Describe the process generating the industrial byproduct: _____

Attach copies of the analytical testing results for characterization or recharacterization:

Water Leach Test, Appendix Table 1 Bulk Analysis, Appendix Table 2 Appendix Table 3 (FGD only)

Note: Recharacterization is not required if less than 1000 cubic yards of the byproduct were beneficially used or stored in any calendar year during the previous 4-year period.

Note: Test results supporting the eligible uses must be included with this form submittal. Storage facility operators may provide the name and address of the generators of the industrial byproducts to be stored as an alternative to this documentation.

Volume available on an annual basis for beneficial use (in cubic yards): _____

Certification Statement

Department of Natural Resources staff are hereby authorized to conduct inspections of this facility generating or storing industrial byproducts and collect necessary samples to verify compliance with ch. NR 538 Wis Adm. Code. I hereby certify that the above information on this form is true, accurate and complete to the best of my knowledge and the use and storage of industrial byproducts described will meet the performance standards of s. NR 538.04, Wis. Adm. Code.
