Annual Pressure / Vacuum Certification for Gasoline Tank Trucks

Form 4500-197 (01/22)

Notice: This form is available for use to submit pressure/vacuum test results using EPA Method 27 required to demonstrate compliance with Wisconsin gasoline vapor control requirements as stated in s. NR 420.04(4), Wis. Adm. Code. Use of this form is voluntary. Customers may submit test results using another format as long as it contains the same information. Personally identifiable information included on this form may be provided to requesters as required by Wisconsin's Public Records law [ss. 19.31-19.39, Wis. Stats.].

INSTRUCTIONS: Complete this form for each gasoline delivery tank truck tested.
 Please type or print clearly.

FOR WI DNR USE ONLY		
Processed date	Retest date	Sticker #

Carrier/Operator Mailing Address:

The sticker and approval letter will be mailed to this address.

Carrier/Operator Name	Attn to		
Address	City	State	ZIP Code
Phone Number (include area code)	Email		

Test information:

Test date	Testing company name	Name of tester
Trailer/Unit #	Serial #	

All readings are taken over a five-minute period. Pressure and vacuum are measured in inches of water. Unit is allowed a maximum of 3" (0.75 kPa) drop in 5 minutes.

PRESSURE TEST: Pressure tank to 18 inches of water (4.5 kPa). Allow manometer to stabilize.

	Initial Pressure (Inches H2O)	Initial Test Time	Final Pressure (Inches H2O)	Final Test Time	Pressure change (Inches H2O)	Time Change
Test						
Test						
Average of two runs						

VACUUM TEST: Evacuate tank to 6 inches of water (1.5 kPa). Allow manometer to stabilize.

	Initial Vacuum (Inches H2O)	Initial Test Time	Final Vacuum (Inches H2O)	Final Test Time	Vacuum change (Inches H2O)	Time Change
Test						
Test						
Average of two runs
