Bear - Additional Requirements for Captive Wild Animal Farm License

Notice: Pursuant to s. 169.15(5), Wis. Stats., this form is required to be submitted along with form 9400-577, Captive Wild Animal Farm License Application, when applying for a license to have bear on a captive wild animal farm. The Department of Natural Resources (DNR) has additional standards, limitations, and requirements for captive wild animal farm licenses and for captive wild animal farms, including fencing of the farms. Personal information collected may be used for participation in surveys, eligibility for approvals, law enforcement and other secondary purposes and may be provided to requesters to the extent required by Wisconsin's Open Records laws (ss. 19.31-19.39, Wis. Stats.)

All sections must be completed.

Applicant Name (as entered on form 9400-577, Captive Wild Animal Farm License Application)	Date of Application
---------------------------------------------------------------------------------------------------	---------------------

1. Fencing Requirement	
In most cases an outdoor housing facility for harmful wild animals shall be enclosed by a secondary perimeter fence that is at least 8 feet high and at least 3 feet from the primary enclosure and which restricts unauthorized public from entering the area where the primary enclosure is located. Variations or exceptions require special written approval from the DNR.	Height of Perimeter Fence Surrounding Enclosure <div style="text-align: right;">Feet</div> <hr/> Distance from Perimeter Fence to Primary Enclosure <div style="text-align: right;">Feet</div>

2. Written Assurance Requirement
Initial Application - Initial captive wild animal farm applications must be accompanied by written assurance that the application is in compliance with local ordinances and zoning regulations on possession of captive wild animals.
Is the written assurance enclosed? <input type="radio"/> Yes <input type="radio"/> No Attach assurance to this application.

3. Environment Enhancement Plan Requirement	
Holders of bear, cougar, bobcat and/or lynx shall develop, document and follow an appropriate plan for environment enhancement adequate to promote the psychological well being of these captive wild animals. The plan shall be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian. The plan shall be made available to DNR staff upon request.	
Name of attending veterinarian	Has veterinarian reviewed the Plan? <input type="radio"/> Yes <input type="radio"/> No

4. Confinement Area			
Bear pens shall be a minimum of 400 square feet. No more than 2 bear may be held in a 400 square foot pen. At least 200 additional square feet is required for each additional bear. The pen height shall be a minimum of 8 feet. A tank or pool with a minimum of 150 gallons of water shall be provided when bear are not in hibernation. The space for the tank or pool of water shall be in addition to the required minimum square footage. Bear pens with open tops shall be a minimum of 1000 square feet. The walls of open top pens shall be a minimum of 8 feet in height with an additional 3 feet at the top slanted inward at a 30 to 45 degree angle.			
Bear will be confined in a pen with: <input type="radio"/> Closed Top <input type="radio"/> Open Top	Size of Primary Enclosure (Pen or Cage) <div style="text-align: right;">Sq. Feet</div>	Size of Pool or Tank <div style="text-align: right;">Gallons</div>	Height of Primary Enclosure (Pen or Cage) <div style="text-align: right;">Feet</div>

5. Exhibition	6. Diagram		
Facilities that Exhibit: Harmful wild animals may only be exhibited at the location authorized on the license. Exhibition of a harmful wild animal at an alternate location requires special written approval from the DNR.
