Hi Nicole,

Thanks for the questions. Hopefully this email clears everything up for you.

Tom is still technically the project manager listed on the file but I will be the one actively working the site, so come to me for questions.

The SI work can be submitted as an addendum/supplemental to the site investigation report and the submittal should be labeled as such. It doesn't have to be a massive and comprehensive document for the all of the SI work done but make sure covers the next round of work. This should be submitted through the submittals portal. I am fine with an emailed SI workplan.

Proper certification should be included with these submittals as well.

Tom will likely still process the PECFA costs requests so still send them his way.

If you have any further questions/need more clarification please let me know.

Thank you,

Subject: FW: Karcz Ford (Former) - S Side UST (03-05-562646) Closure Not Recommended Letter

Hello Colin,

Thank you for the email. I read through the letter.

Are you the new WDNR project manager for this case? The Conclusion section of the letter states for the remainder of the closure process for the case you are the point of contact.

I'd like to discuss with the WDNR project manager a few items specifically as is relates to the required tasks/documents listed in the Schedule section of the letter. The Schedule section states that another NR 716 Site Investigation Work Plan should be submitted followed by a supplemental Site Investigation Report for the additional work. I'd like to clarify that the Department is requiring full documents for these (can we report via email with attachments to streamline) because REL needs to submit a cost request for PECFA funds for all the additional field work and reporting.

Tom has been the WDNR PM and also completes the approvals for the PECFA funds.

Thank you,
Nicole

Subject: Karcz Ford (Former) - S Side UST (03-05-562646) Closure Not Recommended Letter

Good morning Alan and Nicole,

Please see the attached closure not recommended and offsite notification letters for the Karcz Ford (Former) - S Side UST (03-05-562646) site. The letters were signed on Tuesday, October 22, 2019, and put in the mail.
The letter outlines the issues to be addressed prior to closure resubmittal.

If you have any comments or questions please feel free to reach out.

Thank you,
