Tyler Nadiger
705 47th Street
Kenosha, WI 53140

Subject: **705 47th Street Environmental Investigation Sampling Results**
BRRTS#: 02-30-287150

Dear Mr. Nadiger:

In accordance with Wisconsin Department of Natural Resources (WDNR) regulation NR 716.14, EnviroForensics, LLC (EnviroForensics) is providing the results of the environmental sample collected from your home located at 705 47th Avenue in Kenosha, Wisconsin during June 2020. The sampling activities are part of an environmental investigation being performed for the Martino's Master Drycleaners facility located at 4700 7th Avenue in Kenosha, Wisconsin at the direction of the WDNR pursuant to the authority granted to it under state and federal law. The chemicals of concern for the investigation are the dry cleaning solvent tetrachloroethene (PCE) and its associated breakdown products.

Sampling and Results

One (1) indoor air sample designated "6189-STORE-F2-IA-24" was collected during the sampling event. The laboratory report associated with the sample is attached. The sample results are compared to the residential Vapor Action Levels (VALs) established by WDNR in the attached **Table 1**. PCE was detected at a concentration of 11.3 micrograms per cubic meter ($\mu g/m^3$), which is below its VAL. No other chemicals of concern were detected in the sample.

The PCE concentration has been below its VAL in five (5) of the last six (6) indoor air samples. EnviroForensics will continue monitoring indoor air quality in your home to confirm that concentrations remain below action levels. An energy recovery ventilator (ERV) installed on the heating and ventilation system in May 2016 continues to operate, increasing the amount of fresh air exchange to your home.

If you have any questions or would like to discuss the sample results, please contact me at 262-290-4001 or by email at bkappen@ enviroforensics.com. The WDNR project manager, Doug Cieslak, can be reached at 414-263-8564.

N16 W23390 Stone Ridge Drive, Suite G, Waukesha, WI 53188 | P: 262-290-4001 | enviroforensics.com

We greatly appreciate your help and patience with this matter.

Sincerely,
EnviroForensics, LLC

Brian Kappen, PG
Project Manager

Dear Mr. Kappen,

Please find the attached analytical report for the samples received June 10, 2020. All test methods performed were fully compliant with local, state, and federal EPA methods unless otherwise noted. The project was analyzed as requested on the enclosed chain of custody record. Please review the comments section for additional information about your results or Quality Control data.

Feel free to contact me if you have any questions or comments regarding your analytical report or service.

Thank you for your business. EnvisionAir looks forward to working with you on your next project.

Yours Sincerely,

Stanley A Hunnicutt
