SUBJECT: Institutional Control Audit Related to the Former Hunt Wesson MFG Coal Gas Site Located at 104 River Road, Menomonie, WI
BRRTS# 02-17-000328

Dear Mr. Schneider:

I appreciate the opportunity we had today to discuss the status of the Department's closed manufactured coal gas plant case related to the above-referenced property. As you know, the Department had previously closed this case, subject to the condition of your ongoing inspection and maintenance of the asphalt surface in the truck loading area in the northeast corner of the property. Based on my inspection of the site today, the asphalt cap is still present and in good condition, hence the conditions of our closure are still being met.

In the future, should you need to remove or modify this cap, or parts thereof, please contact the Department prior to doing so, so that we may discuss your future responsibilities at that time. I appreciate your attention to this matter and should you have any questions related to this matter, please feel free to contact me at 715-839-1602.

Sincerely,

Doug Joseph
Hydrogeologist
Remediation and Redevelopment Program
