Ms. Gigi Chan
Foth & VanDyke
10850 West Park Place
Suite 950
Milwaukee, Wisconsin 53224-3619

Dear Ms. Chan:

At the public hearing for the Nicolet College Lakeland Campus on November 12, you requested information on known spills and leaking underground storage tanks in that project's vicinity. Although we sent the most pertinent information to Carol Bacon of your firm last May, we have run a new, more extensive set of printouts. Attached are all the sites we presently know within one mile of Lakeland Union High School; some are farther than a mile.

If you have any questions on this, please contact Mr. Bob Gutknecht (his business card is stapled to the second page of the printouts; if you have questions on any of the various spills, you may contact any of the listed DNR "project leaders". If none is listed, you may contact Mr. Archie Wilson of the Rhinelander DNR office at (715)369-8915. I also suggest you contact these same individuals if you wish technical interpretations, questions answered, or discussion of possible implications of any of these cases to the Nicolet College Lakeland Campus proposal.

As you will note on some of the printouts, several of these cases are now considered inactive. Further action on inactive cases is not being required at this time, based on available information.

I hope that this information will be useful to you.

Sincerely,

Terrence C. McKnight
Environmental Impact Coordinator
