Hi Maddy. Dale is still the contact. I would send the letter to him. Ron Anderson has no connection to the case. He is just a consultant trying to get the job. I would not cc him on anything at this point, but provide him with copies of stuff when he asks for it.

Subject: RE: Cedarburg Light and Water (BRRTS # 03-46-003301)

John,

Thank you for the information. I have a few remaining questions. The reports prepared by Northern Environmental in the 90s are addressed to Dale Lythjohan from Cedarburg Light and Water Commission. I am wondering if future correspondence with the RP should still be addressed to him. Also, the parcel report for W61 N617 Mequon Avenue in Cedarburg lists the owner as the City of Cedarburg Fire Department. I want to clarify that Cedarburg Light and Water is still the RP for the case.

Lastly, what is Ron Andersons relationship to this case? When looking through the file I did not see a Ron Anderson from METCO mentioned, so any information would be appreciated.

Thank you again,

We are committed to service excellence.

Thanks Maddy. It looks like it stalled out right in the middle of the closure package preparation in 2014. I sent another wake-up email on 10/11/2016 to Stu Gross, but I did not get any response at all. This is the last thing I got:

(I am copying Ron Anderson from METCO on this email since he recently sent me an inquiry about the case)

Good afternoon John-
My apologies for the delayed response. Stantec is working on behalf of Cedarburg Light and Water, towards the preparation of a closure request but ran into some difficulties finding accurate property information (legal descriptions, etc,) required as part of the closure packet. We are hoping those issues are resolved. Once complete, the closure packet will be provided for your review. In the meantime, please let me know if you have any questions. Thank you.

Subject: Cedarburg Light and Water (BRRTS # 03-46-003301)

Hello John,

I received the case file for Cedarburg Light and Water (BRRTS # 03-46-003301). My goal is to activate the case, and I will keep you in the loop with any progress that is made. However, I will not be following the case through to closure. When the case becomes active, I will give it back to you. I have looked through the file and the available e-documents, and I noticed the RP was very active in the beginning, but once closure was denied in 1997 the case became stalled. I could not find any documents dated after 1997. If you could provide me with any additional insight into the case, like justification for closure denial and why the case has not progressed, it would be much appreciated.

Thank you in advance,

We are committed to service excellence.
