SUBJECT: Final Case Closure By Closure Committee
Blound/Omark Industries, 474 Birch St, Prentice, WI
WDNR BRRTS #: 03-51-000110
PECFA # 54556-1106-74

To Whom It May Concern:

On October 3, 2002, your site as described above was reviewed for closure by the Northern Region Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On October 7, 2002, you were notified that the Closure Committee had granted conditional closure to this case.

On November 4, 2002, the Department received correspondence indicating that you have complied with the conditions of closure, specifically, you submitted documents and fees for inclusion of your site on the GIS Registry of Closed Remediation Sites. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

Sincerely,
NORTHERN REGION

Subject: Conditional Case Closure
Blount/Omark Industries, 474 Birch St, Prentice, Wisconsin
WDNR BRRTS # 03-51-000110
PECFA # 54556-1106-74

To Whom It May Concern:

On October 3, 2002, your request for closure of the case described above was reviewed by the Northern Region Closure Committee. The Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the Closure Committee has determined that the petroleum contamination on the site appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code and will be closed if the following conditions are satisfied:

The monitoring wells at the site should not be abandoned at this time. You should continue to use them for monitoring for your other case.

Due to the presence of residual soil and groundwater contamination at the site in excess of NR 720 Residual Contaminant Levels (RCLs) and NR 141 Enforcement Standards (ES), the Department requires that the site be listed on the GIS Registry of Contaminated Sites. You will need to submit materials, as listed on the enclosed lists, along with your check for $450 to me at the above address. When all the material and the fee are received and reviewed, the Department will send you notice of final closure.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm]

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if

additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

Sincerely,
