Hi Adam:

Yes:

Giles is the selected consultant and I am currently the contact. We will put together a SIWP and frame up the remaining investigation activities.

Hi Kevin,

I wanted to confirm from either you or the RP that Giles will be the consultant for this open case and that you will be the contact.

As I recall, you had mentioned that construction/redevelopment activities are planned for this location in the near future. Please keep in mind that while these redevelopment activities occur, environmental investigation/ remedial action should follow NR 700 and other applicable state code.

I would expect that a site investigation work plan would be the next written submittal to the Department. Likely it would include a summary of past information and how future investigation work will fit in with site development plans.

If you have any questions, please let me know.

Thanks,

Adam
