Attachments: SKM_C284e18090612480.pdf

Rick,
I have attached a map. The product is called Fluid Film and it is a liquid lubricant corrosion inhibitor. We cleaned it up with absorbents and oil boom and the Coast Guard did respond.
Thanks Glenn

Subject: Bay Ship Building Spill - SERTS # 20180905NE15-1

Glenn

Can you provide some additional details with regard to the spill referenced above. What type od material was released (hydraulic oil?), what was done for cleanup (if anything), did the Coast Guard respond, please provide a map with the location of the spill. Was this an equipment issue or human error?

Once I get that info then I can get this closed out of our system.

Thanks

Rick
