## Condition Report

Pertaining to Section 6. Restricted Areas.

F. Slow-no-wake area is proposed in that portion of the Peshtigo River (High Falls Flowage) downstream from Boat Landing 7 because this area is a narrowing of the river, thereby constricting boat traffic and rendering the area dangerous when a number of boats are navigating through it, at the same time, at a speed in excess of slow-no-wake. Many users have contacted town officials requesting a slow-no-wake zone due to potential hazards caused by many near misses between themselves and others.

Pertaining to Section 11. Water Skiing.

This area is proposed to be used by the public in general who may wish to pickup and drop off skiers at docks and a ski jump, and by a ski team for the same purposes, pursuant to Wisconsin Statutes 30.69(3), and to alert other users in the area that they may expect water skiing activities to be occurring in the established area. Ski shows and ski<sup>show</sup> practices will also take place in this area.
