Eagle, WI 53119

RE: Plan Approval Letter

Dear Tom:

This letter is to serve as notice that the Department of Natural Resources (Department) has reviewed your 2017 "An Aquatic Plant Management Update for Eagle Spring Lake in Waukesha County". This plan was written by Jamie VandenLangenberg of Lakeland Biologists and the plan is dated March 2017. The plan meets the requirements of NR 109.09(2)(a-f), Wisconsin Administrative Code.

The Department hereby approves the 2017 Aquatic Plant Management Update for Eagle Spring Lake for use as the guidance document for aquatic plant management and associated activities on Eagle Spring Lake. This approval is not an endorsement of the plant management activities that may occur under the appropriate permits, but rather that the Eagle Spring Lake Management District has complied with the criteria of Chapter NR 109, Wisconsin Administrative Code. Your next step is to apply for a 5 year harvesting permit under NR 109. Future permits issued to the District from the Department under Chapters NR 107 and NR 109, Wisconsin Administrative Code, will reference your 2017 APM Plan Update.

Sincerely,

Heidi Bunk

Lakes Biologist
