Subject: Round & Little Round Lakes Aquatic Plant Management Plan Approval Request

Dear Mr. Kollodge,

Thank you for your efforts to understand, protect, and improve Round and Little Round Lakes! This letter is to notify you that the APM Plan, dated December 2014, meets the criteria under Administrative Code NR 198.43 and thus DNR has approved the APM Plan. Approved management activities as outlined in the Plan, and summarized below, are eligible for funding under Lake Management Planning, Lake Protection and Classification, and Aquatic Invasive Species grants subject to the application requirements of those programs.

Approved management recommendations include the following:

1. AIS prevention activities including watercraft inspection and AIS monitoring
2. Species-specific AIS monitoring and control, provided it meets DNR guidelines and specifications outlined in the approved plan
3. AIS and lake educational activities

Please note: Aquatic plant control for the purposes of nuisance relief or navigation are *not* eligible grant activities, and the Department reserves the right to inspect nuisance conditions prior to permitting any management of native plants.

Thanks to you and the lake community for your efforts to protect Round and Little Round Lakes.

Sincerely,

Alex Smith
Lake Biologist
