Subject: Long Lake Aquatic Plant Management (APM) Plan Approval Request

Dear Mr. Langer,

Thank you for your efforts to understand, protect, and improve Long Lake! This letter is to notify you that the Aquatic Plant Management (APM) Plan dated October 2017, meets the criteria under Administrative Code NR 198.43 and thus DNR has approved the APM Plan. Approved management activities in the plan and outlined below are eligible for funding under Lake Management Planning, Lake Protection and Classification, and Aquatic Invasive Species grants subject to the application requirements of those programs.

Approved management recommendations include the following:

1. AIS prevention and monitoring activities
2. Species-specific AIS monitoring and management, provided it meets DNR guidelines and approval specifications
3. Educational activities including AIS workshops, signage, etc.

Please note: Aquatic plant control for the purposes of nuisance relief or navigation are *not* eligible grant activities, and the Department reserves the right to inspect nuisance or navigation conditions prior to permitting the treatment of aquatic plants.

Thanks to you and the lake community for continuing your efforts to protect and improve Long Lake.

Sincerely,

Alex Smith
Lake Biologist
