Subject: RE: Half Moon Lake property owner

Hi Sarah,

Thank you for the note, and Florence thank you for the Healthy Lakes interest. Yes, the program still exists with up to \$1000 per best practice available. The funding is provided to eligible applicants, including lake associations and districts, local units of government, and tribal organizations, who would apply on behalf of individual property owners. The next application deadline is February 1. www.healthylakeswi.com

I have been out of the office with family medical issues and work travel so I haven't caught up on my voicemails, unfortunately. Appreciate your patience!

Best regards,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Half Moon Lake property owner

Hi Pam, I was contacted by Florence Schacht, a property owner on Half Moon lake in Iron River who is interested in using a Healthy Lakes grant to install a raingarden and shoreland restoration on her site. Her address is 8235 N. Shore Drive. I have cc'd her and Travis from the Land Conservation dept. on this so they'll be in the loop as well. She said that she had phoned you but hadn't received a call back yet. She would like for me to come and at least provide a site assessment. Is the Healthy Lakes program still in effect and taking applications? I don't remember if one property owner can apply or does it have to be through a Lake Association? If I took the time look online I'm sure I could get these answers, just thought to contact you as Florence said she had already tried to make contact with you. It sounds like her

ite is quite challenging, with Beaver action causing flooding and erosion. I haven't been there yet though. Hope to hear back from you soon.

Thank you, Sarah
