

APPENDIX I. SEDIMENT ALLOCATION TABLES

Table 1. Allocations of sediment loads (as total suspended solids, TSS) by source for each TMDL subbasin. Allocations for TMDL subbasins 55, 56, 58, 59, 80, and 81 (marked with an asterisk, *) do not include loads from point and nonpoint sources on tribal lands in each subbasin. Recommended loads for source on tribal lands are reported separately in Table 2. Note that individual loads may not sum to reported totals due to rounding.
