Eurasian water-milfoil
Myriophyllum spicatum
(Non-native)

Leaves in whorls of 3-5
and may be widely
spaced along the stem

Note: More than 12
pairs of leaflets

Northern water-milfoil
Myriophyllum sibiricum
(Native)

Note: Usually
12 or fewer
pairs of leaflets

EWM is a non-native aquatic plant recently confirmed in Upper Twin Lake. Movement mainly occurs through runners and fragmentation, potentially forming dense beds that may impede navigation. Wave action may increase potential movement. Please use caution in the mapped area and follow best practices to protect TCF and prevent spread to other waters. Scan code for more invasive species info.
