

The State of the Watershed report represents the collaborative efforts of the Long Lake Preservation Association, the University of Wisconsin Stevens Point, University of Wisconsin Extension, the Wisconsin DNR, Washburn County, Northwest Regional Planning Commission, and the Natural Resource Conservation Service. The report would not have been possible without their input and knowledge. Staff from the UW Stevens Point Center for Watershed Science and Education and the Center for Land Use Education served as lead authors of the report:

Michael Dresen, Director, Center for Land Use Education  
Paul McGinley, Associate Professor, Center for Watersheds Science and Education  
Eric Olson, Project Coordinator, Center for Land Use Education  
Jason Folstad, Project Assistant, Center for Land Use Education

Thanks to the following reviewers for providing helpful comments and suggestions:

Allan Barta, Long Lake Preservation Association  
Larry Daman, Wisconsin DNR  
John DuPlissis, UW Stevens Point  
Tom Fredrickson, USDA Natural Resource Conservation Service  
John Haack, UW Extension  
Anna Haines, UW Stevens Point  
Wes Halverson, UW Stevens Point  
Brad Johnson, Wisconsin DNR  
Ruth King, Wisconsin DNR  
Ed Olund, Long Lake Preservation Association  
Danny Ryan, Wisconsin DNR  
Larry Ruetz, Wisconsin DNR  
Bill Saumer, UW Extension

Special thanks go to Ed Olund and Allan Barta, volunteer project coordinators for the LLPA.

This project is supported by a Lake Protection Grant from the Wisconsin DNR. Additional support comes from a minigrant from the Wisconsin Environmental Education Board and a watersheds grant from the US EPA. For more information about this project, visit the LLPA's website at <http://www.longlakellpa.org>.
