Bass Lake Restoration Project Final Report	Bass lake, located in southwest Marinette County, is a 37.4 acre hard water drainage lake with a maximum depth of 62 feet and an average depth of 23 ft. Bass lake is dimictic and exhibits very strong thermal stratification due to its small surface area relative to mean depth (stratification factor= 42. 7). The Bass lake shoreline is dominated by low-lying cedar swamp with limited upland areas. Development is limited to four private dwellings, giving the lake a strong wilderness character.
