

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-173 (1048-01)

Name: TOWN OF WATERFORD: Tichigan Lake (Waterford Impoundment) Management Planning

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 4/22/1993

End Date: 6/30/1998

Purpose: Conduct water quality monitoring. Conduct a public opinion survey of sanitary district residents. Conduct an aquatic plant survey of the Impoundment. Prepare a collection of preserved and identified plan samples. Information will be disseminated to the public by fact sheet, local newspaper articles, and public meetings.

Objective:

Comments: Grantee is TOWN OF WATERFORD

TICHIGAN LAKE (WATERFORD IMPOUNDMENT) MANAGEMENT PLANNING	The Lake Management planning grant allowed for three major studies to be completed. A community survey, an aquatic plant study and comprehensive water quality testing. Information from these three studies is essential to aid in future planning for the management of our considerable water resources. Since the Fox River within our township is considered an impoundment, it could be included in these studies along with Tichigan Lake. The public was kept informed, as work progressed, through posted meetings as well as press releases to local newspapers.	Town of Waterford Waterways Committee	6/30/1998
