

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL-526

Name: CITY OF FOND DU LAC: Lake Winnebago Stormwater Exfiltrat. Stdy/BP Monitoring

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 10/1/1997

End Date: 12/31/2000

Purpose: The City of Fond Du Lac proposes to do a stormwater study and bypass monitoring on Lake Winnebago. This project will identify potential sources of stormwater exfiltration from storm sewers into sanitary sewers, evaluate alternatives and recommend ways to alleviate the problem. Some of the activities included in this grant will include: 1) review stormwater pumping station plans and storm sewer system plans, 2) field viewing and structural reviews of storm sewer systems, 3) analysis and monitoring of pump station and storm sewer system capacities and water quality monitoring during at least two bypass events, 4) evaluate and recommend alternative improvements. The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newspaper articles, an Engineering Feasibility Study Report mailings and public meeting(s).
