

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: ALPT-008-04

Name: LITTLE ST GERMAIN LAKE P & R DISTRICT: Exotic Aquatic Species Control Project

Type: Aquatic Invasives Grant

Subtype: Aquatic Invasives Control

Status: COMPLETE

Start Date: 5/1/2004

End Date: 12/31/2010

Purpose: The Little St. Germain Lake P&R District is sponsoring a grant to monitor and control the population of aquatic exotic species in the lake. This project implements recommendations contained in the recently completed five-year exotic aquatic species management plan. Key components for this project include: maintain a monitoring & documentation program; annual treatment & control of exotic species; monitor for invasion of new exotic species; community education & awareness program and public announcements of progress and findings.

Multiple aquatic plant surveys will be conducted through out each year. Survey reports will be developed including a complete species list, maps displaying locations, tables listing species & associated data for each sample point, narrative explaining survey finding's, unique conditions, differences between current and past surveys, and guidance concerning treatment areas.

A final project report will be developed for this project including the reports described above and findings of the project as a whole.
