

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** LPL-403

**Name:** IRON COUNTY: Iron County Lakes Classification & Management Planning Model

**Type:** Lakes Grant

**Subtype:** Large Scale Lake Planning

**Status:** COMPLETE

**Start Date:** 10/1/1996

**End Date:** 6/30/1998

**Purpose:** Iron County proposes to 1) develop a list of parameters that will be applied to county lakes to produce a priority list of potentially impacted lakes; 2) conduct a survey of shoreland property owners and other lake users; 3) conduct an active information/education program to keep citizens, local officials, etc. informed of project; and 4) develop a model to incorporate environmental and sociological criteria into a planning model to evaluate different management options. These activities will result in a lake screening process, a lake priority list, a survey of water resources stakeholders, and a water resource value model. The Department of Natural Resources will be provided with a paper copy and an electronic copy of the final report. Information about the project will be disseminated to the public by public meeting, newspaper articles, newsletter mailings, and report mailings. end.

**Objective:**

**Comments:** Grantee is IRON COUNTY

**Outcome:**

**Study Design:**

**QA Measures:**

### Actions

Action	Detailed Description	Start Date	End Date	Status
Social Survey of Residents or Users	10099928	10/1/1996		PROPOSED

## Wisconsin Department of Natural Resources SWIMS Project Summary

Grant Awarded	The Gilbert Lake Advancement Association proposes to evaluate the effect of the supplemental enhancement of weevil populations as a selective aquatic plant management technique to control <i>Myriophyllum spicatum</i> . Project activities will result in a field evaluation of experimental weevil stocking, a status report and presentation to the lake group, and a final report including feasibility recommendations. The Department of Natural Resources will be provided with a paper copy and an electronic copy of the final report. Information about the project will be disseminated to the public by fact sheet distribution, public meetign, and summary report mailing.	10/1/1996		COMPLETE

## Wisconsin Department of Natural Resources SWIMS Project Summary

Title	Description	Author	Published	Comments
IRON COUNTY LAKES CLASSIFICATION & MANAGEMENT PLANNING MODEL	The Island Lake Survey was a joint project, initiated between the Iron County UW-Extension Office and the Price County Land Conservation Department, in 1997, to research how people view, value, and use water resources. The Island Lake project focused only on a survey of property owners on that lake and primarily on what they valued about their lake. The Price County project surveyed lakeshore property owners county wide and included more issues such as drinking water quality.	Iron County UW-Extension Office	6/30/1998
