

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL-588

Name: VILLAGE OF OXFORD: Neenah/Oxford Lake Stormwater Mgt Plan Phase 2

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 10/1/1998

End Date: 6/30/2000

Purpose: The Village of Oxford includes major portions of Oxford and Neenah Lake drainage area. The Village desires to complete a stormwater management plan in order to protect the lakes from sediment and nutrient pollution. Activities included in Phase 2 include water quality modelling analysis, alternative evaluation, review regulatory impacts, capital/maintenance cost ID, implementation strategy development and use demonstration. These components will be developed into a preliminary stormwater management report: 1) Modelling of stormwater quality under present and proposed land uses with alternative BMPs evaluated, 2) Evaluation of regulatory compliance with plan recommendations, 3) Cost projections for selected BMPs, and 4) Implementation strategy. The DNR will be provided with two paper copies and an electronic copy of the report. The project results will be disseminated to the public by news release, preliminary report, final report presentation and report mailings.
