

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-761-01

Name: LAKE PUCKAWAY PROTECTION & REHAB DISTRICT: Lake Puckaway Management Plan

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 4/1/2001

End Date: 12/31/2003

Purpose: The Lake Puckaway Protection and Rehabilitation District proposes to undertake a comprehensive lake management planning project for Puckaway Lake. The project will consist of collecting, analysing and summarizing new and existing physical, chemical and biological data for the preparation of an educational brochure. A survey will be conducted of lake users and area residents about perceptions, attitudes and expectations for the lake; resident advisory "issue teams" will be organized to develop management strategies addressing these issues. The results of all "issue team" efforts will be summarized in a comprehensive lake management plan. In addition, the goals and objectives for each issue identified by the "issue teams" will be documented. This lake management plan will be developed that will incorporate historical data, current status relative to land use and water quality and the publics' expectations for the future of the lake. It will also describe management alternatives and any conflicts or consequences resulting from multiple uses and expectations for the lake. This plan, the educational brochure and survey results will be presented at the District's annual meeting and through its newsletters, both pre-project and post-project work. The DNR will be provided both a paper copy and an electronic copy of the management plan.
