

Wisconsin Department of Natural Resources  
SWIMS Project Summary

General Project Information

Project ID:

RM-028-06

Name:

UPPER SUGAR RIVER WATERSHED ASSOCIATION: Schlapback Creek Protection...Phase I

Type:

River Grant

Subtype:

River Protection Grant

Status:

COMPLETE

Start Date:

7/1/2005

End Date:

12/31/2007

Purpose:

Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc.

Objective:

A full description of the project goal and objectives are in the grant application, which is a part of this application.

River protection grant project to determine nutrient and sediment loads to Schlapbach Creek in Dane County, Wisconsin

Determine need for stormwater detention and or best management practices to improve water quality of Schlapbach Creek

Comments:

Grantee is UPPER SUGAR RIVER WATERSHED ASSOCIATION

Outcome:

Study Design:

QA Measures:

Citizen-Based Stream Monitoring	Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc.	7/1/2005	12/31/2007	COMPLETE

## Wisconsin Department of Natural Resources SWIMS Project Summary

Grant Awarded	Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc.	7/1/2005	12/31/2007	COMPLETE
Fisheries Trout Stream Habitat Maintenance and Development	Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc.	7/1/2005	12/31/2007	COMPLETE
Rivers Management Grant	Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc. A full description of the project goal and objectives are in the grant application- which is a part of this application.	7/1/2005	12/31/2007	COMPLETE
Habitat Restoration - Instream	Schlapback Creek presents opportunities for a diverse and dynamic protection and management program. The goal of this grant is to implement Phase I of the emerging watershed management plan for the Schlapbch Creek watershed. Specific objectives include: Perform in-stream restoration of Schlapback Creek to favor brook trout habitat; set up a volunteer stream monitoring program; work with landowners; etc.	7/1/2005	12/31/2007	COMPLETE
