

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID:

RP-056-03

Name:

FOX WOLF WATERSHED ALLIANCE: Schoenick Creek Watershed Improvement Project Phase I

Type:

River Grant

Subtype:

River Planning Grant

Status:

COMPLETE

Start Date:

7/1/2002

End Date:

12/31/2003

Purpose:

Fox-Wolf 2000 proposes to work with the Schoenick Creek Task Force and the UW-Stevens Point Environmental Task Force to conduct surface water quality assessments of Schoenick Creek. The sampling will consist of base flow and event sampling at 7 sites. The assessment will be used to determine if the water quality problems are associated with groundwater or runoff issues. A second component will be the establishment of a long-term volunteer monitoring team to continue monitoring water quality within the Schoenick Creek watershed. The third component will be watershed landowner education of the project by sending out a letter explaining the sampling and a public meeting.

The Department of Natural Resources will be provided with both a paper copy and electronic copy of the surface water quality assessment.

Objective:

Comments:

Grantee is FOX WOLF WATERSHED ALLIANCE
