Lac La Belle Planning Grant	Lakes Planning Report In 1991 the Lac La Belle Management District (LLMD) applied for, and received a Wisconsin Lake Management Planning Grant. The LLMD grant application contained three primary components. Each component would develop a publication for area distribution . â€ Recreational Use surveys including riparian boat counts, access surveys, lake use surveys and public education, â€ Sensitive and environmentally important areas and ordinance development~ including survey of adjacent landowners, and public education. â€ Compile and review water quality data, and public education, The grant was later amended to publish one "Lake Book" that would encompass each of the three educational components, and would provide a more complete picture of Lac La Belle .
