

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL-083 (5013-01)

Name: HORSEHEAD LAKE P& R DISTRICT: Horsehead Lake Management Planning

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 11/5/1991

End Date: 12/31/1994

Purpose: 1) Water quality monitoring during 1991 and 1992, for parameters and on schedule as described in letter dated July 19, 1991 from Ron Krueger to Linda Houghton, attached to application. 2) A dissolved oxygen survey will be conducted in late February.3) A survey for algae will be conducted at the times indicated in the July 19, 1991 letter referenced above. Algae species diversity and density will be identified. 4) A macrophyte survey will be conducted in late July 1992. Transects and sampling locations will be the same as those in the 1976 study of Horsehead Lake conducted by Northern Lakes Service. Species diversity and density will be recorded. 5) A shoreland survey will be conducted in July 1992 to identify land use types. Problem and sensitive areas including highly erodible soils, septic fields, wetlands, woodlands, and conservancy areas will be delineated and mapped. Current and potential erosion problem areas will also be identified. Management recommendations will be made for problem areas. 6) A final report will be completed by October 1992. It will include lake production measures and management alternatives. 7) The DNR shall receive copies of the final report. 8) Information will be disseminated to the public by

SWIMS Project Summary

Title	Description	Author	Published	Comments
Limnological Study of Horsehead Lake, Oneida County - April 1992 - November 1992	The following is a description of and results from the planning grant study of Horsehead Lake performed by Northern Lake Service between February 1992 and November 1992. The purpose of this study was to determine current water quality for comparison to past and future data and provide a basis for recommending improvement/preservation strategies.
