Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-144 (6020-01)

Name: BIG WOOD LAKE ASSOCIATION, INC.: Big Wood Lake Management Planning

Type: Lakes Grant

Subtype: Large Scale Lake Planning

6/30/1995

Status: COMPLETE
Start Date: 12/7/1992

Purpose: 1) Monitor water quality during 1993 as specified in application. 2) Collect hydrologic data. 3) Conduct an aquatic

macrophyte survey.4) Map land use within the watershed. 5) Disseminate information to the public by newsletter, local

newspaper, and public meetings.

Title	Description	Author	Published	Comments
BIG WOOD LAKE MANAGEMENT PLANNING	The ultimate goal of the Big Wood Lake Planning Grant Study was to develop a long range planning strategy which would aid the Association and local units of government in managing the lake and its watershed. The specific tasks carried out as part of the study include: 1. Assessment of Big Wood Lake water quality. 2. Collection of hydrologic data in order to determine the general hydrologic conditions of the Big Wood Lake Watershed. 3. Collection of biological data on Big Wood Lake, focusing primarily on aquatic macrophytes. 4. Assessment of general land use patterns within the direct Big Wood Lake watershed. 5. Distribution and analysis of a property owners survey.	Barr Engineering Company	1/1/1994
