

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** LPL-322

**Name:** WIND LAKE MANAGEMENT DISTRICT: Wind Lake Bathymetric Map Development

**Type:** Lakes Grant

**Subtype:** Large Scale Lake Planning

**Status:** COMPLETE

**Start Date:** 2/28/1995

**End Date:** 12/31/1996

**Purpose:**

1. Develop a standard bathymetric map giving depth contours at one foot intervals with a stage/volume relationship.
2. Develop a map showing the relative reflectivity of the bottom lake sediments. One meter core samples will be taken and percent solids determined from different reflectivity zones to quantify the reflectivity values shown on the map.
3. CAD data files will be supplied for both maps.
4. Prepare a final report summarizing the results of tasks above.
5. Disseminate information on the project results to the public by newsletter mailings and public meeting.
