

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** LPL-131 (4028-01)

**Name:** CHILTON LAKE DISTRICT: Lake Chilton Water Quality Monitoring & Macrophyte Survey

**Type:** Lakes Grant

**Subtype:** Large Scale Lake Planning

**Status:** COMPLETE

**Start Date:** 12/3/1992

**End Date:** 6/30/1995

**Purpose:** 1) Monitor water quality during 1993 per application specs. 2) Collect and identify macrophytes. 3) Correlate water flows with amount of sediment accumulation.4) Disseminate information to the public by local newspaper, public meetings, and summary report mailings.

**Objective:**

Title	Description	Author	Published	Comments
Chilton Millpond Lake Management Planning Grant 1993 Report	The main objective of this study was to collect limnological data on Chilton Millpond. Our goal with gathering this baseline information to help us make decisions on whether to continue the effort to establish a warm water fishery in Chilton Millpond at this time or defer this attempt to a later time. A secondary goal of this study was to look for relationships between the land uses in the watershed and the water resources of the South Branch of the Manitowoc (and its tributaries) and the problems of that face the resources of the Chilton Millpond.	Chilton Lake District and Aquatic Resources
