

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-473

Name: SHELL LAKE INLAND LAKE PROT & REHAB DISTRICT: Little Ripley Lake Water Quality Data Collection

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 4/1/1997

End Date: 6/30/1999

Purpose: The Shell Lake Protection and Rehabilitation District proposes to collect water quality data on Little Ripley Lake. Project activities include 1) collect in-lake water quality data and samples, 2) monitor lake levels, 3) monitor precipitation, 4) conduct an evaluation of the tributary watershed, and 5) prepare a final report on the project results. Donated labor by volunteers, as part of the project's local cost share, is included and estimated at approximately 172 hours X \$5.00/hr or \$860. Donated labor activities include water sample collection, water quality measurements, lake level monitoring, precipitation monitoring, and staff gage installation. The Department of Natural Resources will be provided with a paper copy and an electronic copy of the final report. Information about the project will be disseminated to the public by public meeting and newsletter mailing.
