

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-586

Name: HATCH LAKE ASSOCIATION: Hatch Lake Water Management Plan

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 10/1/1998

End Date: 10/8/1998

Purpose: The Hatch Lake Association proposes to gather basic water quality, land resources and watershed data. This will include physical and chemical water quality characteristics, bottom sediment and benthic characteristics, aquatic plant communities, fish communities, land use information, watershed soils, geology, and stream assessment. This information will be used to determine the existing and potential management practices that will stabilize and/or restore the ecosystem. The DNR will be provided with both a paper copy and an electronic copy of the final report. Information will be disseminated to the public via newsletters, presentations at the annual and other lake association meetings, a final report and a comprehensive management plan at the end of the project.
