

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID:

LPL-864-03

Name:

MINOCQUA/KAWAGUESAGA LAKES PROTECTION ASSN.: Minocqua Lake Hydrology & Water Quality Study

Type:

Lakes Grant

Subtype:

Large Scale Lake Planning

Status:

COMPLETE

Start Date:

4/1/2003

End Date:

12/31/2004

Purpose:

The Minocqua/Kawaguesaga Lake Protection Association is sponsoring this project. The project and the Kawaguesaga Lake study are a phased project and will be reviewed together for final approval. These two projects will look at Minocqua and Kawaguesaga Lakes to evaluate the current and historical lake water quality, review and summarize the existing water quality related reports and documents, and the results will be used to design a phase 2 comprehensive diagnostic feasibility (D/F) study. These two projects will result in water quality data collection, publishing of the water quality data in the USGS data reports, reporting the review of the historical and current water quality data, delineation of the watershed for the lakes, presentation of results to the lake association, and preparation of the study design for the water quality portion of a Phase 2 D/F study for the two lakes.

All final products will be provided to the Department in electronic (pdf) and hard copy format.

Water quality data will be sent to the Sate Lab of Hygiene and additional field data will be submitted to the Department in electronic format.

Objective:

Comments:

Grantee is MINOCQUA/KAWAGUESAGA LAKES PROTECTION ASSN.

Outcome:

Study Design:
