

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: TRC-LC10-03000-02

Name: BARRON COUNTY: Lake Desair TRM Project

Type: NPS Grant

Subtype: Targeted Runoff - Rural Construction

Status: COMPLETE

Start Date: 1/1/2002

End Date: 6/30/2005

Purpose: To cost-share landowner installation of BMPs

Objective:

Comments: Grantee is BARRON COUNTY

Outcome:

Study Design:

QA Measures:

People

Desair Lake Management Report of Activities August 2003-May 2006	The Lake Management Planning Grant, also a cost share with DLR, has completed a study you are about to read. We look to this report for recommendations. Desair Lake Restoration has plenty to do: We have constant monitoring of water quality, destructive construction on the watershed, and the watch for exotic invasive species. Farmers will work to keep the nutrients on the fields where they want them. Poorer fields for farming will continue to grow back to forest. And in this process we gather for picnics and fundraisers, to talk and plan, to walk the trails and meet on the lake in our boats. It is this joining together that adds meaning and joy to our work. When the sediment slows to near presettlement levels, we may then dream of clear water again.	Cedar Corporation	6/30/2006
